Redistricting Rules and Goals

1. Federal Laws

Equal Population
Federal Voting Rights Act
No Racial Gerrymandering

2. California Criteria for Cities

1. **Geographically contiguous**
2. **Undivided neighborhoods and “communities of interest”**
(Socio-economic geographic areas that should be kept together)
3. **Easily identifiable boundaries**
4. **Compact**
(Do not bypass one group of people to get to a more distant group of people)

Prohibited: “Shall not favor or discriminate against a political party.”

3. Other Traditional Redistricting Principles

Minimize voters shifted to different election years

Respect voters’ choices / continuity in office

Future population growth

Preserving the core of existing districts

Protected Class Groups

- The CVRA defines a “protected class” broadly as a class of voters who are members of a race, color, or language minority group.
- “Language minorities” are specifically defined in federal law to mean persons of American Indian, Asian American, Alaskan Natives or Spanish heritage. CVRA expressly adopts the definition of “language minority.”

Estimates using official 2020 demographic data and NDC's estimated total population figures.

For four districts, each district must contain about 3,183 people.

For five districts, each district must contain about 2,546 people.

Latino CVAP

Latino eligible voters are concentrated in the southern portions of existing Districts 2 and 3.

Defining Neighborhoods

1st Question: What is your neighborhood?

2nd Question: What are its geographic boundaries?

Examples of physical features defining a neighborhood boundary:

- Natural neighborhood dividing lines, such as highway or major roads, rivers, canals and/or hills
- Areas around parks or schools
- Other neighborhood landmarks

In the absence of public testimony, planning records and other similar documents may provide definition.

Beyond Neighborhoods: Defining Communities of Interest

1st Question: What defines your community?

- Geographic Area, plus
- Shared issue or characteristic
 - Shared social or economic interest
 - Impacted by city or county policies
- Tell us “your community’s story”

2nd Question: Would this community benefit from being “included within a single district for purposes of its effective and fair representation”?

- Or would it benefit more from having multiple representatives?

Definitions of Communities of Interest may not include relationships with political parties, incumbents, or political candidates.

Beyond Neighborhoods: Communities

Under the California Elections Code, “community of interest” has a very specific definition in the context of districting and redistricting cities and counties:

A “community of interest” is a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation.

Communities of interest do not include relationships with political parties, incumbents, or political candidates.

(emphasis added)

Model Options

- Four Districts and Elective Mayor with 4-Year Term (current model)
- Four Districts and Elective Mayor with 2-Year Term
- Five Districts and Rotating Mayor

Pros Rotating Mayor

- Rotating Mayor may encourage respect and cooperation among Councilmembers, because Councilmembers have an incentive to respect the Mayor's role and leadership knowing that the Councilmember in question will soon have their own turn to be Mayor.
- Rotating Mayor allows opportunities for council members to become better informed and to provide a broader array of perspectives.
- Rotating Mayor provides opportunities to expand the knowledge and experience of city council members.
- Rotating mayor format is less burdensome on a mayor who is otherwise employed.
- Rotating mayor leadership perspective is not limited to single person for four years.
- Rotating mayor provides new perspective each year as Mayor seat rotates.
- Rotating mayor eliminates there being more than one representative from a single district (the mayor and the councilmember).

Pros Elective Mayor

- Elective Mayor provides continuity in leadership and representation with regional agencies.
- Elective Mayor provides constituents with two representatives (the mayor and the council member) who must earn their vote.
- Elective Mayor with a two-year term allows all voters to vote at every municipal election.
- Elective Mayor provides more consistent and prominent ceremonial figure head.
- Elective Mayor provides continuity from staffing perspective.

An online version of this map that allows you to zoom in and out for more detail is available as a link from the City website.

Each number indicates the total population of that "population unit" area. Each district must have essentially equal population. The population of each of 4 districts must be close to 3,183, with no more than a 318 difference between the largest and smallest.

Each of 5 districts must be close to 2,546, with no more than a 254 difference between the largest and smallest.

Please use a thick dark-colored pen to draw your map, then submit it at City Hall or by email to JBlair@hmbcity.com. You can hand-deliver, mail, fax, scan and email, or photograph and email your map.

Public Hearing & Discussion

What is your neighborhood and what are its boundaries?

What other notable areas are in the City, and what are their boundaries?

Any questions about the mapping tools?

ACTION

Action to identify areas that meet each FAIR MAPS Act (AB 849) definition:

- “neighborhoods”
- “communities of interest . . . that should be included within a single district for purposes of its effective and fair representation.”

Defining Communities of Interest

- Who lives in your community?
- What kinds of things do they do for a living?
- What kind of housing is common?
- What kind of city services do you have or don't have?
- Are there strong social and civic networks?
- Are there important places where people come together, like community centers, churches, temples, neighborhood associations, or parks?
- Do you have common interests in any local political issues, like schools, housing, crime, transit, health, land use, environmental conditions, or other issues?
- Do you have a common race or ethnicity?
Immigration history? Language spoken?
- Does your community have shared socioeconomic characteristics, like income level or education level?
- Does your neighborhood have celebrations or traditions, like street festivals or parades?
- Are there nonprofits or service-providers rooted in the community?
- Is there a place that is the largest employer?
- What is the history of how your community came together?

[Link to Common Cause Worksheet](#)

Where is your Neighborhood or Community?

- What are the streets or boundaries that mark your community's borders?
- What are the significant landmarks: rivers, parks, shopping areas, historic sites, etc.?
- What are the gathering places and service providers: business districts, schools, community centers, religious places, and social service agencies?
- Do the current political district boundaries divide your community? Or do they keep your community together?

Provide a description of how your community is different from or similar to the communities and neighborhoods around you.
