Introduction to Districting

California Voting Rights Act (CVRA)

2

- □ Under the Federal Voting Rights Act (passed in 1965), a jurisdiction must fail 4 factual tests before it is in violation of the law.
- □ The California VRA makes it significantly easier for plaintiffs to force jurisdictions into "by-district" election systems by eliminating two of the US Supreme Court *Gingles* tests:
 - 4. Can the protected class constitute the majority of a district?
 - 2. Does the protected class vote as a bloc?
 - 3. Do the voters who are not in the protected class vote in a bloc to defeat the preferred candidates of the protected class?
 - 4. Do the "totality of circumstances" indicate race is a factor in elections?
- Liability is now determined only by the presence of racially polarized voting

3

- □ Switched (or in the process of switching) □ as a result of CVRA:
 - At least 165 school districts
 - 28 Community College Districts
 - 100+ cities
 - 1 County Board of Supervisors
 - 10 water and other special districts.
- □ Cases So Far:
 - Palmdale, Santa Clara and Santa Monica went to trial on the merits. Palmdale and Santa Clara lost. Santa Monica is awaiting a decision.
 - Modesto and Palmdale each spent about \$1.8 million on their defense (in addition to the attorney fee awards in those cases). Santa Monica has spent an estimated \$5 million so far.

Key settlements:

- Palmdale: \$4.7 million
- Modesto: \$3 million
- Highland: \$1.3 million
- Anaheim: \$1.1 million
- Whittier: \$1 million
- Santa Barbara: \$600,000
- □ Tulare Hospital: \$500,000
- Madera Unified: about \$170,000
- Hanford Joint Union Schools: \$118,000
- Merced City: \$42,000
- An estimated \$16 million in total settlements and court awards so far.

Demographic Summary

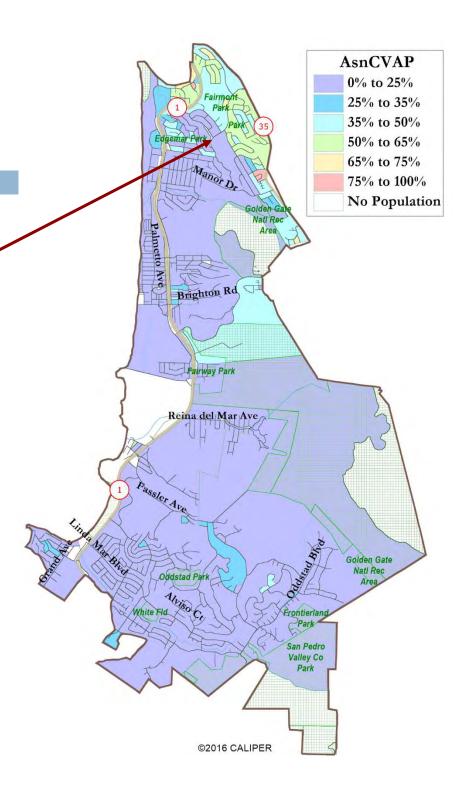

Each of the 5 districts must have about 7,447 residents.

The additional data fields can be used, where appropriate, to assist in identifying "communities of interest."

Asian-American eligible voters are concentrated in the northeast part of the city.

Other Protected Classes

Neither Latino nor African-Americans are concentrated in any particular part of the City.

Defining Communities of Interest

9

1st Question: what is your neighborhood or community of interest?

A Community of Interest is generally defined as a neighborhood or community of shared interests, views, problems, or characteristics.

Possible community feature/boundary definitions include:

- □ School attendance areas
- Natural neighborhood dividing lines, such as highway or major roads, rivers, canals, and/or hills
- Areas around parks and other neighborhood landmarks
- Common issues, neighborhood activities, or legislative/election concerns
- Shared demographic characteristics
 - Such as similar levels of income, education, or linguistic isolation

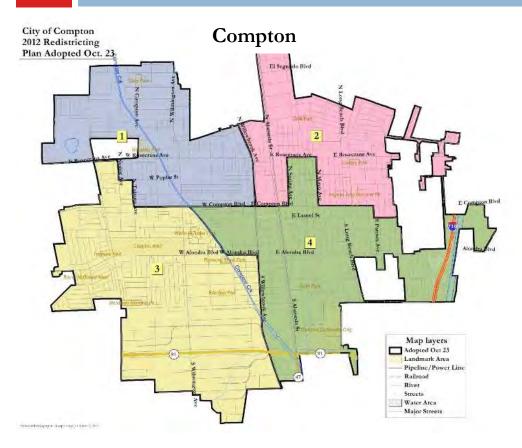

2nd Question: Does a Community of Interest want to be united in one district, or to be divided to have a voice in multiple elections?

- ☐ Use the paper map, the online tool, or any other map
- Draw your neighborhood; draw the district you want for your area; or draw an entire citywide map

Population

Units Map

Each number indicates the total population of that "population unit" area. Each district must have

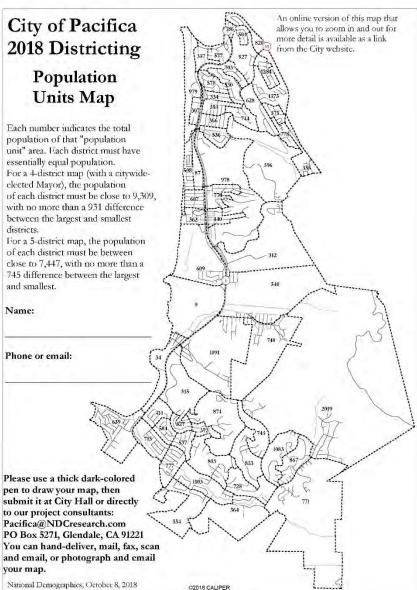

essentially equal population.

Using the One-Page Paper Map

13

Draw your proposed districts, add up the numbers to be sure they are balanced, and send it in.

If you want to divide a Population Unit, simply note which Unit and the street where you want it divided and we will make that division if possible (divisions must be along Census Block lines, which usually follow streets).
